ATHLETICS

The T. H. S. Varsity put up a very interesting game with the Bainbridge High on Friday of last week. Although the score stood 0 to 0, the T. H. S. showed their superiority by keeping the ball in Bainbridge territory during the greater part of the game. The Varsity twice had the ball in about ten yards of Bainbridge's goal, but could not get it over the line.

Hamilton, who played for Thomasville, made nearly all the gains except two fine runs made by Daniels and Rosenberg. Cook, who played left tackle, did some time work, blocking nearly every play that came over him.

The team has put in a hard week's work, learning new plays with which they hope to beat the rest of the games in the season. The boys have hardened considerably, and weigh on an average of a hundred and forty-five pounds, which makes them about as heavy as any High School team in the South. With that weight and hard practice they hope to make a good showing for the season.

(Author Unknown.)

If you go to a school named "Thomasville High,"
 There you'll find teachers whose fame reaches the sky.
 For instance, there's one whose teeth are like pearls,
 Who wears white pumps intended for girls;
 And another, is one always neat and "spick",
 His little French mustache is really quite chic,
 And our athletic teacher is surely a man,
 With his deep sounding voice, and healthy coat of tan.
 Then last, but not least, the one who teaches "math",
 If you don't work hard, you'll tread the "narrow path".
 So there they are, all down "pat",
 They are all a fine lot, don't you forget that!

in order to attain popularity, there is a tendency among us to run with the crowd. We follow the line of least resistance, without stopping to consider whether we are doing right or wrong. We blindly follow a leader, some boy or girl with a personality strong enough to dominate. Frequently the leader's influence is not for the best. That means a low standard for the High School.

The conduct of the world is guided by public opinion. If public opinion is strong enough, any one opinion or any law can be changed because of it. Public opinion in the High School should put down bad leaders—leaders who do not stand for the things that count. There are schools where such things as cheating in class are so frowned upon by the students themselves that it is done away with. In High School as in the world beyond us, the public opinion controls conduct. The responsibility rests on each one of us to stand up for the things that are worth while, and by so doing help create a high standard for our school.
